

SOLAR SYSTEM MOBILE MAKING KIT

WARNING:
CHOKING HAZARD - Small parts.
Not for Children under 3 years.

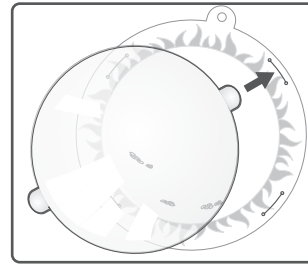

To Parents: Read all instructions before providing guidance to your children.

A. CONTENTS

1 set glow ink printed Solar Systems planets cardboard, 1 set (18 pcs) transparent plastic dome cover, 1 set hanging frame structure including joints, straws and thread and detailed instruction with Kids Quiz.

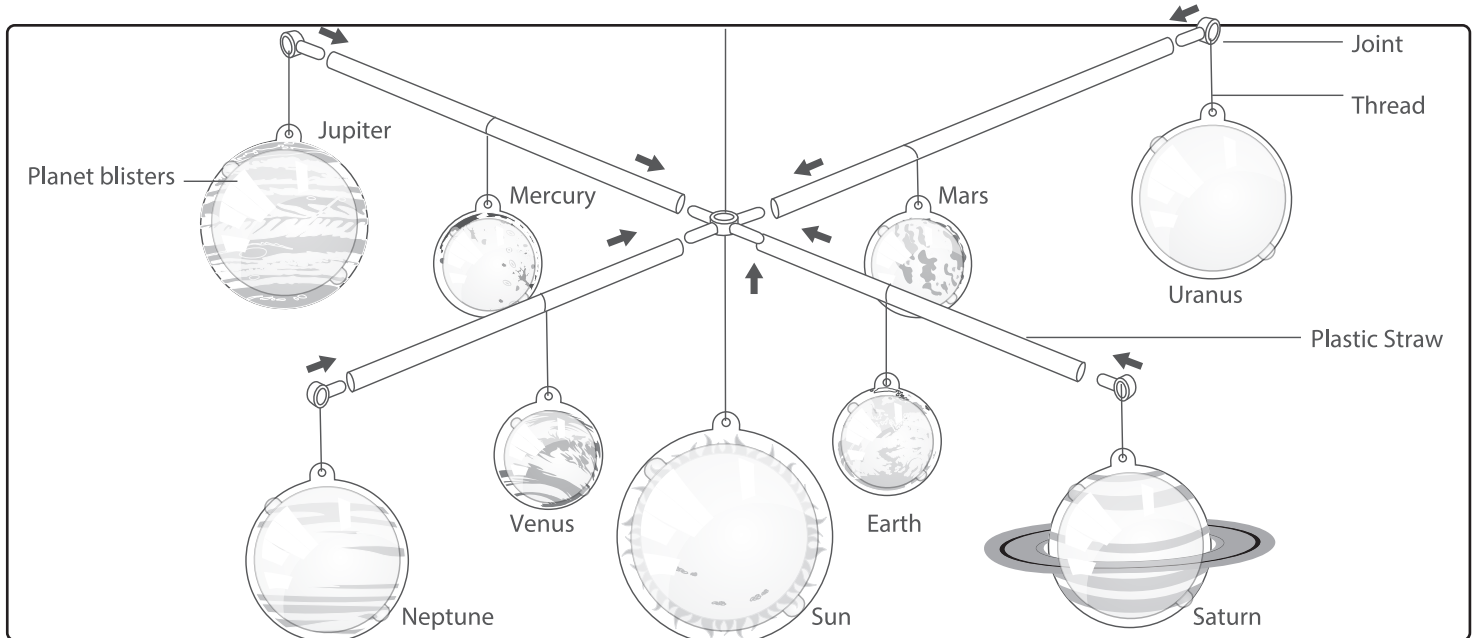

B. ASSEMBLING THE PLANETS

1. Pop out the Solar System planet paper boards.
2. Insert the tab of each planet shell into the slot of its corresponding paper board.
3. Insert the matching planet shell on the opposite side of the paper board.
4. Repeat the above steps for all planets.

C. ASSEMBLING THE MOBILE

1. Tie one end of the thread to the hole of each paper board and the other end to the hanging structure.
2. Refer to the diagram below that indicates how to assemble the structure and where to hang and balance each planet. (However, please be aware that the sizes and placement of the planets for this mobile do not at all reflect the relative sizes and distances as they exist in the real Solar System. Here, the paper board sizes and positions are merely for the purpose of balancing the mobile.)

D. HOW TO MAKE IT GLOW?

Hang the mobile on the ceiling. First expose it to the room's light or the light of an electric torch for a minute. Next turn off the light and watch the mobile glow as if by magic! Recharge it as often as you like and it will glow again and again. Glow-in-the-dark fun as unlimited as your imagination!

E. KIDZQUIZ™

1. What is the length of a year on Saturn?
2. What is the length of a day on Venus?
3. Which planets lie between the Earth and the Sun?
